

Assignment 3

Assignment 3

- In a group, create a website that demonstrates HTML/CSS capabilities and techniques to an audience that could use your web development services.
- Draw from Codecademy and Codeschool lessons, perhaps making a list of techniques you'd like to share with hiring companies--both non-technical and technical people.

Assignment 3

- On demo day...
 - Let everyone in the group speak
 - Show you can "Talk the talk" and that you can help people with their business goals.
- Problem and solution is a good format your presentation. For example:
"Sometimes its challenging to....
a good way to fix that is..."
